EDUCATION

B.Tech in Computer Science

Ramdeobaba University, Nagpur

Expected Graduation: 2028

CGPA: 9.15

SKILLS

- **Programming:** C++ | C
- **Core CS:** Data Structures & Algorithms | Object-Oriented Programming | Operation Systems | Computer Networks
- **Design:** UI/UX Design | Wireframing | User Flow Design | Mobile Interface Design
- **Tools:** Figma | Canva

EXPERIENCE

UI/UX Design Intern

Aylark | 2 Months

- Led the end-to-end UI design for a service-based mobile application using Figma
- Defined the product structure by creating user flows and wireframes for key service booking journeys
- Designed major product screens including onboarding, booking interface, and user dashboard
- Collaborated with developers to ensure accurate implementation of design components
- Coordinated and reviewed design work of multiple UI interns, ensuring consistent visual design across product screens

PROJECTS

Service App Product Design

- Designed the complete user journey for a mobile service platform from concept to final interface
- Created low-fidelity wireframes and iterated layouts based on usability considerations
- Built high-fidelity UI screens and reusable components in Figma
- Focused on clear navigation, visual hierarchy, and mobile-first usability

ACTIVITIES

- Designed social media visuals for the college literature club to support event promotion
- Hosted and narrated segments during college events
